Science 6 Term 1 Instructor: Nikki Ben
Good effort in term 1
Science 6 Term 2
A determined and consistent student.
Science 6 Term 3
A pleasing effort and result throughout the year. Kyle has good application but I believe he could still improve on these results with a little more effort both in class and with his project work. He sometimes seems to be coasting along a little and relying on his natural ability. A little more application at the right times could turn this result in to an A.
